

# *Start 2011 strong with* Building a Prosperous Business Using the BDA Tools

## *A Phone Meeting*

January 15, 2011  
11am-1pm PST

This workshop will be sponsored by the Saturday morning Building a Prosperous Business BDA meeting in Seattle, Washington. The proceeds will be used to sponsor their ISR to the World Service Conference in 2011.

The BDA tools are essential for our recovery and should not be seen as a substitute for working the 12 steps. Once you learn how to implement the tools on a daily basis you will learn to operate your business on spiritual principles. The tools are very powerful and when they become an integral part of your recovery you can expect to see more abundance and prosperity in your business and your life.

The format for this phone conference will be that 12 BDA members from different cities in the US will share their strength, hope and experience on each of the 12 business tools. They will speak for 5 minutes each. The members who share will have tremendous recovery in working the steps and in using the tools in their business. After each has shared there will be 30 minutes for others to share and you will be given three minutes each to share.
